

Ticehurst Parish Council

Are pleased to report that a successful bid to Rother District Council has resulted in the main playgrounds at Ticehurst, Flimwell and Stonegate being upgraded with new equipment. We extend our thanks to Rother District Council for their matched funding. All playgrounds should be completed prior to the start of the school holidays and we hope that they are enjoyed by the children of the three parishes.

Stonegate

The current metal play equipment will be replaced with a Beddington Climbaround unit:

Ticehurst

The remaining metal multi-play unit will be replaced with a Manor Activity Centre

Flimwell

The set of swings will be removed (one is broken and out of use) and replaced with a zip wire that the children on site have informed us that they would like to have there:

The multi-play metal unit will be removed and replaced with a wooden structure, similar to the pictures of the units for Stonegate and Ticehurst and an additional piece of equipment, a see-saw, will also be added to this playground:
